Internship

Chandigarh Engineering College   June 2024 – July 2024

Android Developer Intern

This internship provided me with invaluable hands-on experience in Android development, working on a large scale and collaborating with talented engineers. I gained a deeper understanding of the Android ecosystem and best practices for app development.

Projects

Pubg Game Prediction | *Python, Kaggle*

- Engineered a machine learning model that analyzed player statistics and game data to predict PUBG match outcomes.
- Achieved a 75 accuracy rate, enhancing strategic decision-making for gaming enthusiasts.
- Uploaded the code, data, and documentation to Kaggle, making it accessible to the data science community.

E-Commerce Website | *HTML5, CSS3, JavaScript, Bootstrap*

- Developed a responsive and interactive e-commerce website as a final project during a coding boot camp.
- Utilized HTML for structuring the website's content, CSS for styling and layout, and JavaScript for implementing dynamic functionality and enhancing user experience.

Spam Ham Classifier

- Given the Message to detect if the message is spam or ham. It is implemented by different machine learning algorithms to get the desired output.

Technical Skills

Languages: Python, Advanced Python, SQL, Basics of R, Java, HTML, CSS, Basics of JavaScript
Concepts: Compiler, Operating System, Virtual Memory, Cache Memory, Encryption, Decryption, Artificial Intelligence, Machine Learning, Hypothesis testing, Regression analysis, Data Cleaning, Data Preprocessing, Data Wrangling

Interests and Hobbies

- Exploring emerging technologies, programming languages, and interdisciplinary fields to broaden my technical knowledge and skills.
- Writer sharing creative works on YouTube ("@Redbloodtales"- Hindi poetry/shayri, 10K+ subscribers, over 7 million total views)
